- 1. Fire Chief Rittmeyer visit-Fire crew came in to talk about the condition of the Station, Steve said his opinion even though he had spoke to the Board before about staying in it for a couple more years, but given the flood he didn't feel like they could hold out. Board talked about a new station and biggest problem is the land for it. Parcels need to be suitable, not to near town but with good line of site and preferable near water and sewer, or land that can be utilized for a good station. TM said she asked about plans from engineer, another outfit is coming too that Blue Hill is talking to and would give some information on a 4 bay station.**
